Paint&Wear T-shirt is a t-shirt painting kit including a 100%-cotton t-shirt and six ultra-washable markers. The specialty of the markers is that it can easily be removed without rubbing off on the other laundries while machine or hand-washing. With this specialty, children will be able to paint for several times. The markers are imported from Austria and do not contain any toxic substances which are harmful for children.

- ② There are reports received on that matter.
- ② The fabrics used are 100% cotton and do not cause shrinkage or skewness.
- ② At the sales areas, they are sold for 12 months without any summer-winter divisions.
- ② We can reprint the t-shirt and the packaging of this product with special designs for our customers, which we present with an elegant and steady packaging.

SPECIAL DESIGN FOR YOU

Together with our design team, we design the product packaging and the printings on t-shirts according to your company in line with the data received from you. For instance, you may have a toyshop, a theme park or a museum. We design a special packaging for you with your prominent images and information. Perhaps, you may wish to design it with your own team. We can make the printings of the illustrations of the heroes, if one, or the images you request on t-shirts. Besides, we also prepare collar and arm labels in accordance with your logo and colours.

PAINT&WEAR T-SHIRT SPECIFICATIONS

⑦ Painting is an activity which increases the creativity of children, develops the intelligence and draws the attention of every child. These activities performed by the children allow that they can observe their environment in a better way and develop their handicrafts. In the first years of preschool education which is one of the most important stages of children's education and the primary school, painting activities take a significant position both at school and home. Washable paints provide opportunities for these activities to be performed over and over again.

⑦ The paints used are imported from Austria. Every test has been performed for the paints and they do not contain any toxic substances. They have CE and EN 71 certificates.

⑦ T-shirts are made of 100% compact combed cotton (m2/160gr). Washing process does not harm the t-shirts. They do not cause any shrinkages and skewness.

⑦ Paints do not rub off on the other laundries during machine or hand wash. After the painting process, t-shirts can be worn comfortably without paintings.

PRODUCTS

CATEGORIES

TOY CATEGORY

These products are mostly sold at toy and souvenir shops. They consist of t-shirts having patterns of butterflies, fairies, clowns and flowers on them. We are also able to design special products which highlight own corporate identities of the toyshops.

PROMOTION CATEGORY

As our customers will distribute these products for promotion purpose, they get it produced to promote the outstanding or the newly-launched product of the company. If there is a newly-launched product or a hero of the company, then they are highlighted with the corporate colours of the company on t-shirts and packaging.

TOURISTIC CATEGORY

On these products, depending on the region where they are sold, there take place the illustrations of the outstanding historical values of that region. For example, as well as the Maiden's Tower and Hagia Sophia for Istanbul, Aspendos possibly takes place for Antalya, or Fairy Chimneys for Cappadocia and the Clock Tower (Big Ben) for London. It is possible to classify these works as city concepts, theme parks, aquariums and zoos.
